DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This building is four and a half stories high and two bays wide. It is built of rusticated stone.

The first and second stories have been completely altered: the first story is wood panelled and contains two doors; the second contains three sheet glass windows flanked by metal siding.

The left bay of the third story contains a bay window which consists of three double hung 1/1 windows set in flat arch frames and having rusticated lintels. These windows all have flat arch transoms containing four, ten, and four lights from left to right. A flat arch rusticated lintel appears above the transoms. Beneath the bay window is a carved stone filigree band. There is a single round arch double hung 1/1 window with a transom of many leaded glass lights in the right bay of the third story.

The window in the left bay of the fourth story is set in a round arch recess. A double hung 1/1 window is flanked by two triangular single hung lights. A wrought balcony resting atop the bay window below appears in front. In the right bay is a pair of single hung one light windows set in round arches.

A moulded roof cornice appears above the fourth story windows. The shingled mansard roof contains a dormer with a hipped roof. The dormer contains two double hung 1/1 windows set in a flat arch recess; these windows share a common ashlar million.
